

Curt Jarzab

Seeking Entry level Web developer position

Columbus, OH 43235

maerskman1@gmail.com

708-336-8821

I am an Engineering Maintenance Technician in a commercial full service hotel in Columbus Ohio. I have studied HTML5 and CSS3 as well as javascript as part of my interest in emerging new technologies. Previously, I studied at Environmental Technical Institute in Itasca Illinois Prior to Air Conditioning course work at the College of Dupage IL. I am highly dependable, reliable, resourceful, and Excellent Customer Care is my focus.

I collaborate well with others on the team. I am always seeking to learn something new. As a career minded professional I am a Hardworking Maintenance Engineer. I have Approx. 10 years Warehousing Shipping & Receiving, Load and Unload, Dock office/ASP (Administrative Support), as well as Information systems dept, and Warehouse Inventory experience. I am a very hard worker and I produce results. As a hobby I like to work with computers especially rebuilding them and have taught myself to code. I have a website and github account for inspection: <http://checknget.com/index.html/> <https://github.com/maerskman>

I am On-time, make it a point to report to work early, and I am very loyal. I look forward to reviewing my qualifications with you soon.

Sincerely,

Curt Jarzab

Willing to relocate: Anywhere

Authorized to work in the US for any employer

Work Experience

Engineering maintenance Technician

Embassy Suites by Hilton - Columbus, OH

July 2017 to Present

As a maintenance engineering technician, I am responsible for the upkeep and maintenance of the Building systems as well as the grounds. Providing Excellent customer service and resolving issues as they arise. I work on a rotating schedule and maintain HVAC, Pool, Electrical, and Plumbing systems as well as carpentry when the need arises.

Engineering Maintenance Technician

The Joseph - Columbus, OH

2016 to 2017

I am an engineering technician on a 3 person team. My excellent customer service is something I take pride in.

My primary responsibility is conduct preventative maintenance tasks within the hotel. I cover the chief engineers'

schedule when he is out and I cover the part-time man when he is out as well. I am currently learning how to PM the

HVAC heat removal system that occupies the entire penthouse. When I am not doing either of those responsibilities

I am usually working on other projects around the building. Painting, plumbing, wiring, some punchout work it varies on the day. Many of the projects we have, involve learning how to repair or replace material not seen in your typical

hotel. It is a constant learning process but I am mechanically inclined so i am well suited to the job.

There is nothing

I cannot learn within reason and I have high expectations for myself. I will be an excellent addition to your winning team.

Maintenance Technician

Fairfield Inn & Suites - Columbus, OH

2015 to 2016

Perform morning grounds inspection duties including pool chemistry, and upkeep. Drywall, painting, plumbing, electrical commercial property maintenance. maintain parts shop in a neat and orderly fashion at all times. Also

Function as Airport Shuttle Bus driver on charter shuttles for corporate clients. Knowledgeable fast learner.

Accomplishments

I successfully brought all 135 rooms at current employer to excellent standards as dictated by corporate

requirements. I continue to keep rooms to high standard of excellence. Always learning is crucial to be a successful

Maintenance Engineer. I seek out new challenges to expand my knowledge in building maintenance. I believe in doing it right the first time. Carpentry, drywall, Electrical, Plumbing, Pool Maintenance, Trade School HVAC. I have

learned to fine tune my customer service skills. I am always seeking more knowledge to build my list of skills on.
